

Unlimited Potential

Unlimited Potential has a clear mission: to make the world a happier and healthier place to live.

Unlimited Potential is a democratically-controlled social enterprise that specialises in social innovation for happiness and health. We are a community benefit society whose objects are:

- To support people to lead happier and healthier lives.
- To help people who want to develop their skills and abilities to fulfil their potential.
- To be a happy and healthy enterprise that has the best possible impact for people and for a sustainable world.

First established in 2002, Unlimited Potential was the first organisation in northern England to gain the national Social Enterprise Mark and holds the Investors in People standard and the Fair Tax Mark. It is an accredited Living Wage Employer, and holds both Disability Confident Leader status and Simplyhealth's Healthy Workplace Award. It won awards at the national Living Wage Champion Awards in 2018 and 2019.

The Society won the Innovation Award in the Greater Manchester Health and Care Champion Awards 2018. It won Greater Manchester Chamber of Commerce's Innovation Award 2011 and the Innovation Award in the Salford Business Awards 2012 and 2015.

Unlimited Potential has run innovative projects and services for 15 years to address some of the most challenging social and economic issues, drawing on local people's strengths. Our current activities include:

- Breath Stars: using singing in choirs to help children with asthma.
- Dadly Does It: working with fathers to improve their children's health.
- Elephants Trail: creating solutions with people with lived experience of severe and multiple disadvantage.
- Empower You: engaging disabled people in physical activity.
- FACT: supporting young people to use their entrepreneurship.
- Local employment: creating employment opportunities for disadvantage local people with anchor institutions.
- Spreading Our Net: cross-sector approach to reducing social isolation and loneliness.
- Wellbeing Matters: social prescribing, connecting people to local assets.

We were the local partner site for asset-based approaches in the national Realising the Value programme, with Nesta and the Health Foundation.
